- “Innovative ideas, good examples.” – D. Morrison, Seagate Technology
- “Wish I had this 10 years ago when I first became a supervisor.” – J. Hart, Dir of Prop Ops, Hilton Hotels
- I would just like to take the opportunity to congratulate you on a very well run workshop. The content was applicable and understandable. I have already used some of your knowledge to "assist" our maintenance department. The highlight of the presentation for me was the way in which the course was delivered.
